## NO SPITTING ON SIDEWALK, EDICT ISSUED BY POLICE

Ordinance Passed In Year 1902 To Be Rigidly Enforced  
From Now On—Physicians And Board of Health  
Request Action.

In accordance with the ordinance providing for the cleanliness of the sidewalks and streets of Charleroi, the police from now on will arrest all persons expectorating on the sidewalks, and have them taken before the burgess. The ordinance has not of late been enforced and the sidewalks sometimes in places have been in dreadful condition, covered with germ breeding spittle, especially the sidewalks on McKean avenue being so. The physicians of the town and the Board of Health have been urging their desires for cleanliness of the streets and sidewalks.

The ordinance regarding the matter was passed in the year 1902, it going into effect on June 6th, that year. In section 1 it is stated that it shall be unlawful for any person to spit

saliva, expectoration, tobacco or other substance, upon the sidewalks or footways in any of the high ways, streets, lawns or alleys; or throw or cause to be thrown any waste paper, filthy water, slops, garbage, or debris on any of the sidewalks or footways, or in any of the highways, streets, lawns or alleys, of the borough of Charleroi.

In section 2 the penalty for the violation of section 1 is fixed. The fine for the offense as stated above will be an amount not exceeding \$5.00. In default of payment the offender will be confined in the borough lockup for a period not exceeding one day for each one dollar of fine imposed.

An arrest was made last night of a man in front of the Masonic building. He will have a hearing tonight.

## CHANGED CHECK ON CAR OF COAL AND SKIPS TOWN

Changing the check on a car of coal is the charge proven against a man at the No. 4 coal mine, of the Pittsburgh Coal company. The man had previously borne a good reputation and it was a great surprise to the miners to learn of this mean theft. An arrest was intended but the man hurriedly packed a small valise and slipped the town. Through sympathy for his family his name is withheld.

A cow was stolen from the meadow of John Lyons of Gibsonton last week and driven over the Belle Vernon bridge and down towards Charleroi. The theft was committed in daylight and although the different cattle buyers have been notified there is as yet no trace of the criminal.

## RELIEF TRAIN WILL QUIT AUGUST FIRST

A number of new houses are being erected at Elrama, which will be occupied by railroad men on the local division. The relief train between Monongahela and Elben will be discontinued August 1, after which time the men with layovers at that point will have to make arrangements to live at Elrama.

### Rooms Being Freshened.

The rooms and hall in school building No. 2, are undergoing a process of renovation, the work being almost finished. They are being beautifully frescoed, the janitors of the four buildings doing the work.

### Notice to Contractors.

The West Pike Run School Board will receive bids for the erection of a new school house at McGinn's until 6 o'clock, Saturday June 27, 1908. Plans and specifications can be seen either the President's or Secretary's office. Board reserves the right to reject any or all bids. By order of and.

## ONIONS TAKE DOUBLE HEADER

Second Contest Lost After  
Going Twelve  
Innings.

4 TO 2 AND 3 TO 1

Uniontown took a lead on the first position yesterday that will be hard to overcome, by taking both games of a double header, the first by a 4 to 2 score and the second 3 to 1 after going 12 innings. The first contest started at 2 o'clock with Scissors Melvaine on the hill for Charleroi and Abe Kruger, the pride of the Onions did the delivering for his team. While Charleroi got to his benders pretty freely they didn't come at the right time and two runs out of eight hits was the result. These two tallies were made in the third round when with one down Nally looked them over for free transportation. Tom Cosgrove marched one which sent Nally down a sack. Elliott picked one off the bush which counted for three bases sending two runs over. Although two hits were made in succession in the eighth with one down there was nothing doing in the run getting line as the next two batters were easy outs.

While Charleroi was striving for a victory the Uniontown boys were chalking up runs for themselves, the first one coming in the second round when Rudolph was hit and Joe Phillips soaked the pill for three sacks. Two more were made in the fourth when Rudolph doubled, Cowan singled and an error and a passed ball showed up. In the ninth McCloskey singled and after Hilley had died Rudolph singled scoring Mac.

The second game opened up with Osborne opposing Shetler. Arch pitched as nice ball as one could expect and held the Onions safe with the exception of two rounds, the first and twelfth. With one down in the first McCloskey walked and Hilley smashed it for two sacks. After this inning there was nothing doing for either side until Charleroi tried things up by scoring one run in the ninth on singles by Urben, Osborne and Nally.

### Dairymen Push Fight.

Washington, D. C., June 17.—There promises to be a warm hearing on the oleo question before the Department of Agriculture on June 25. The oleomargarine interests are trying to keep the Government mark of inspection off oleo, while the dairy interest insists upon that mark. A statement issued at the department says that "the department is not seeking to favor the dairy interests, nor to punish the oleomargarine manufacturer." The department holds that the papers in which the pound prints of oleo are wrapped are containers of meat food products, which under the meat inspection law should bear the Government mark.

## COAL COMBINE TO MAKE EFFORT TO RAISE MORE

The Monongahela river coal combine will make an effort to raise the steamer Stella Moren which went over the dam at Lock No. 2 last April and was wrecked. Her machinery, which is about all that is left will be repaired and used in building a new boat.

A committee, consisting of Capt. A. R. Mackey, C. F. Boles, Albert Gilmore, J. W. Buttonfield, I. T. Dunlevy, W. K. Reno, Thos. Flaherty, Harry Black, Matthew Irwin, William Cowan, A. W. Harger and B. F. Crawford, has been appointed to make arrangements for the annual outing of the members of Harbor 25. Masters and Pilots, which will take place some time in July.

Packet men report some good catches of black bass and pike near lock 14 on the Monongahela. The West Virginia fishing season opened June 15 and continues until April 15. One or two camping clubs are now under canvas and several others have arranged to go into camp about July 1.

A slight rise in the upper Ohio river yesterday enabled packets to pass over the shoal places below dam No. 2. Dam No. 4 was reported up

## COMMISSIONERS TO INVESTIGATE

Catsburg Bridge at Monongahela To Be Examined.

ACTION TO BE TAKEN

County Commissioner Huffman and County Engineer Wylie were appointed yesterday by the board of commissioners to go to Monongahela today to investigate the breaking down of the Catsburg bridge by the Pittsburgh and Charleroi street railway company.

It is understood that the trolley company has refused to bear the expense toward repairing the structure, but is willing to join with the county in making the repairs. It is understood that no contract was made with the county officials for erecting the trolley line over the bridge with the exception of a verbal one made by a former county commissioner.

The county commissioners of this county together with the officials of Westmoreland and Allegheny counties have entered into an agreement that no trolley company shall erect their lines over any of the river bridges now under course of construction unless a good, stiff rental is received. Huffman and Mr. Wylie will make a thorough investigation of the broken structure and report on what can be done in reference to bearing the expense.

### Bishop Thoburn at Brownsville

The twelfth annual convention of the Fayette County Sabbath School Association closed at Brownsville last evening. Bishop J. M. Thoburn of Indiana was among the speakers. A feature of yesterday was a parade of Uniontown and Connellsville people, visiting delegates and Sunday schools.

### Are Near Alaska.

Word has been received from Mr. and Mrs. M. E. Riggs, who left recently for the far West, by their daughter here, Mrs. V. E. Reeves. They were at the time of writing about a week ago on the Skeena River, about 200 miles from Alaska. They will locate a few miles farther up the river where Mr. Riggs will be employed by the Hidden Creek Copper Company.

An excursion will be run from Charleroi, on Saturday night to Fairmont, where the Charleroi Baseball team plays Sunday afternoon. The return trip will be made on Sunday night. Tickets will be \$2.00 each.

### Men Are Discharged.

The men who were charged with having stolen the rings and harness fittings belonging to the Charleroi and Walton Lumber companies were discharged last night on payment of all damages.

### Unique Invitation.

The Mens' Bible Class of the C. P. Sunday School of California to get men to attend their meetings resorted last week to freakish invitations. The idea was suggested by the bull dog fight there the Sunday previous. Post cards were sent out bearing the following:

### BULL DOG FIGHT.

All persons interested in the above named encounter, will please come to the City Council Room on Sunday morning at 9:30 o'clock, where free seats will be furnished.

The latter named is the teacher of the class, while the former is a member. Needless to state there was a large attendance.

### Meeting Tonight.

Charleroi Council No. 14 T. B. H. will meet in regular session tonight. All members are requested to be present, especially those holding positions on the degree team. All candidates will please present themselves for initiation at eight o'clock sharp.

### Change In Hour.

Beginning Saturday night, June 20 the three banking institutions of Charleroi will make a change in the hours for opening in the evenings. Instead of opening at seven and closing at 9 they will open at 8 and close at 9. This change is made from the fact that during hot weather long hours are not necessary.

The festival held in the Fleming building last evening on Fallowfield avenue by the Drum Band recently organized was a success. The affair was handled by the boys individually and those who donned the white aprons did their part nicely. The boys wish to tender their thanks to all who aided them.

Who first beheld the light of day,  
In spring's sweet flowery month of May,  
And wears an emerald all her life  
Shall be a loved and happy wife.

There are no doubt many "loved and happy wives," who first beheld the light of day in spring's flowery month of May, who never wore an emerald. They no doubt preferred other precious gems, such as diamonds, garnets, pearls or opals. Doesn't matter. If you want a ring with any special stone, we can suit you. Our stock is complete.

## A Conference Held?

It is semi-officially stated that a  
secret conference was held at Chicago  
by the Pennsylvania State Delegation  
at which the political situation in this  
State was thoroughly canvassed and  
discussed in all of its phases.

Chairman Andrews, it is stated,  
blantly told the members that the at-  
titude of the Washington Observer  
and the Canonsburg Notes was giving  
him great uneasiness and that no time  
must be lost upon their home in start-  
ing a vigorous campaign, as he was  
convinced that the situation there was  
very serious.

Senator Penrose does not hesitate to  
say that the situation is grave and he  
is in favor of compromising with the  
Observer and The Notes as he fears  
their powerful and widely extended  
influence exerted against the ticket  
will imperil Republican success this  
Fall unless they are placated.

Senator Knox, when shown those  
statements at his home in Pittsburg,  
was non-committal but the serious ex-  
pression of his face and his grave de-  
emeanor told plainer than words how  
greatly he is impressed. One of his  
close and confidential friends quotes  
him as saying: "that misprision of  
treason cannot be reached by a scire  
facias, but per curiam."  
It is thought the situation hinges  
upon whether The Notes is appointed  
Consul to Mwp. This it is expected,  
President Roosevelt will gladly con-  
sent to do, as it is known that he has  
passed many sleepless nights trying to  
arrive at a solution of this threaten-  
ing and perplexing question and will  
do so as soon as requested to save the  
party in Pennsylvania this Fall. It  
is stated that Hon. Israel Durham and  
Hon. James McNicholls, of Philadel-  
phia, have gone to Washington to see  
President Roosevelt and use their great  
influence with him to have The Notes  
appointed.

## A Noble Example.

The action of the A. O. H. in in-  
viting their fellow Irishmen who are  
members of the Orange lodges to take  
part in their exercises at Kenneywood  
Park was a most commendable act.

That the Orangemen responded to  
the invitation is greatly to their credit

and the practice should become uni-  
versal until the senseless hates and  
foulish divisions that have brought  
nothing but shame, sorrow, poverty  
and wretchedness to their distracted  
land are utterly forgotten and gone.  
These ignoble animosities have been  
fostered and kept alive by those who  
profited by them and it is time that  
a change is made that will cause all  
Irishmen to forget difference of creed  
and the division lines of counties and  
make Ireland what God intended her  
to be.

## As School Officials.

The announcement of Miss Eliza L.  
Wilson of Monongahela, that she will  
be a candidate for school director,  
should give other women courage to  
follow her example.

Something over thirty years ago  
Miss Sarah I. Lewis was elected  
county superintendent of schools of  
Tioga county, Pennsylvania. In an  
incredible short space of time she  
brought about reforms in the school  
system of that county and inaugurated  
such wholesome progress that she was  
re-elected as long as she would serve.  
She brought the schools there to such  
a high stage of efficiency that for  
many years they ranked among the  
best in the country.

Outside of the home there is no  
place in the country where a woman  
can exercise a greater amount of good  
than in the schools. Her intuitions,  
which are far more quicker to act and  
more far certain than those of a man,  
would permit her too see and remedy  
many things that man over looks.

It is an utterly false idea that a  
woman would lose any of her charm-  
ing qualities were she to enter the  
arena of politics. On the contrary  
she would bring a refining influence to  
them that has no place there now.

Jibe at the "Suffragette," if you will  
but you cannot answer her arguments  
that as a citizen and a taxpayer she  
is as much entitled to suffrage as those  
whose skulls received their dentistry  
from forty generations of superstition and  
ignorance. All hail Miss Wilson, and  
may many follow her good example  
and what is more we hope they will  
all to be elected.

## Did Not Succeed.

The laudable efforts of Hon. James  
Burke, of Pittsburg, to secure a just  
representation to National Conventions  
failed, but he did succeed in getting  
the votes of every great Republican  
State in the North in his favor,  
except Ohio, and there he got a split  
vote in its favor. A change of merely  
eighteen votes would have given Mr.  
Burke a victory. As it is the same  
unsavory scandal, the same thwarting  
of the will of the majority will go on  
for four years more.

## Not Sympathetic.

"A fellow feeling" does not seem  
to make the Observer "wonderous  
kind" towards the "allies" at Chica-  
go after the steam roller had run over  
them. One would think that after  
having undergone the same harrowing  
time it would bleed sad tears with them  
as they sadly swapped their ideas as to  
the awful effects of steam rollers in  
politics.

## Charles Reade's Lunatics.

The author of "Leaves From a Life,"  
a woman, referring to Charles Reade's  
notion that half the people shut up in  
lunatic asylums had no business to be  
there, says: "One day he told papa he  
had picked out twelve quite sane men  
from among the supposed lunatics, and  
one of the doctors had promised to ask  
them all to dinner and give them an-  
other chance. Would papa come too?  
As papa knew the doctor and knew  
also that ample precautions would be  
taken, he agreed, and the dinner duly  
came off. All went well, the twelve lun-  
atics behaved admirably, and Charles  
Reade became more and more sure  
that he had rescued twelve unfortu-  
nates from worse than prison until the  
dessert was placed on the table. Then  
the doctor, turning to the man on his  
left, said: 'Have you been introduced  
to your next door neighbor?' He is the  
Virgin Mary.' The lunatic leaped to  
his feet. 'You lie!' he screamed. 'I  
am the Virgin Mary.' And in a mo-  
ment all the twelve lunatics began to  
show themselves in their real colors."

## Too Dangerous.

Mr. Church—Whew, how it's raining!  
Lend me your umbrella, dear, I've  
got to run over to the vestry meeting.  
Mrs. Church—But why not use that  
umbrella you've been carrying all  
week?

Mr. Church—What, to the vestry  
meeting? Why, that's where I got it.

## Last Week's Contest Prov- ed Easy For Many.

Last week's missing word contest  
proved to be an easy one as quite a  
number succeeded in getting the cor-

"BEAUTIFUL" and was omitted  
from the ad of E. J. Foster, between  
the words And and And. Get busy  
this week and see if you can guess it.

Mary Lindley, Victoria street, and  
Miss Pearl White, of Ohio, who is the  
guest of Miss Charlotte Rutherford,  
152 Allison avenue, were delightfully  
entertained yesterday afternoon when  
a picnic was held in their honor.  
About 65 people were present. City  
park was the scene of the picnic,  
which was a most enjoyable one.

# Among the Exchanges

The New York "Times" sees good  
in the depression that has worried  
most people more than a little. It  
finds, evidently after some thought  
about the matter, that it is an inesti-  
mable advantage to young men: just  
leaving college to start their life  
work. Rosy tales of success without  
work, it affirms, are not so common.  
Young men are wanted, of good capac-  
ity, who are willing to work; and  
whose aims, though high, are reason-  
able and intelligible. The mind of a  
young man, who would achieve some-  
thing worth achieving, must always  
be on the working hand. Dreams  
are unprofitable. Energy and indus-  
try count for everything.

The youth when, leaving college,  
takes up the law, not to be a thor-  
oughly good lawyer, with a possible  
judgeship in view for middle life, but  
in the hope of doing something big in  
the corporation line, will probably  
fail. The young man who comes into  
a newspaper office expecting to write  
reviews and leaders at the start, and  
with the avowed intention of using  
journalism as a stepping stone to lit-  
erature, is beginning life fraudulently  
and cannot succeed. Journalism is a  
difficult and exacting profession which  
requires the best energies a man can  
give to it. It is a stepping-stone to  
no other profession.

Manufacturers want good salesmen,  
organizers and managers, positions  
for which the right kind of young men  
can fit themselves in a few years.  
Engineering offers splendid oppor-  
tunities to young men who do not con-  
fuse that noble profession with pro-  
moting and financing. A large  
part of the city of New York is wait-  
ing to be built, and the young archi-  
tect's opportunity is alluring. The  
chance is brave, willing, well edu-  
cated, sanely ambitious young men,  
and it was never better.

On the question of Constitutional  
amendments the Pittsburg Press says:

One of the three amendments to the  
state constitution which will be voted  
on by the legislature at Harrisburg  
this winter provides for the abolition  
of spring elections. There is a ten-  
dency among all the states to do this  
thing, Oregon having voted two  
weeks ago to abolish the elections  
held in June. The amendment now  
pending in the legislature in this  
state cuts out the spring elections en-  
tirely and stipulates that in the even  
numbered years in November the  
state and county officers shall be  
elected, and in the odd numbered  
years the municipal elections shall be  
held November also. Of course, the  
Presidential elections would occur in  
the even numbered years. To carry  
this reform into effect requires the  
amendment of ten elections of the  
constitution, making all terms an  
even number of years. Offices the  
term of which is three years are made  
four years. Those that are now five  
years are increased to six years.  
Election officers chosen for one year  
would serve for two years under the  
proposed change.

As to the state officers, the auditor  
general, who is now elected for three  
years, would serve four years, and the  
state treasurer's term would be in-  
creased from one to four years. Jus-  
tices of the peace and alderman would  
be increased from five to six years,  
and all county officers, councilmen and  
school directors would serve four  
years. The change would wipe out  
the February election, reduce the pri-  
maries from two to one each year,  
and provide for only one personal reg-  
istration.

The second of the three proposed  
amendments provides that municipali-  
ties may contract indebtedness to the  
amount of ten per cent of their total  
assessed valuation. The present con-  
stitutional limitation is seven per  
cent. The third of the proposed  
amendments consolidates the courts in  
Philadelphia and Allegheny counties,  
so that there shall be but one court in  
each. There is little objection to any  
of the amendments except possibly the  
one authorizing an increase of city  
debts. There are some scruples  
against relaxing this restraint. The  
other two amendments are, however,  
fairly certain of popular approval.  
All three have passed the legislature,  
and if they pass a second time will be  
submitted to a vote of the people.

Keffer, Jr., of CharleROI.

Tues. y. June 16, was the sixteenth  
anniversary of the wedding of Mr.  
and Mrs. Daniel Snyder, of Fallow-  
field township. Relatives and neigh-  
bors gathered with well filled baskets  
and the entire day was spent in merry-  
making. The affair was a complete  
surprise to the couple. The guests  
left them a full set of china dishes as  
a remembrance of the occasion.  
About one hundred people were pres-  
ent.

## Short Ways to Multiply.

Rapid multiplication is always a  
source of pleasure and profit to the  
operator and never fails to cause as-  
tonishment in those who do not know  
how it is done. Suppose you wish to  
multiply two numbers of two places  
each, such as 65 and 68. The product  
can be written in one line by inspection  
as follows: Eight times 5 are 40. Put  
down 0 for the right hand figure and  
carry 4. Add 5 and 8 and multiply the  
sum, 13, by 6, obtaining 78, and add 4.  
Put down 2 for the next figure and  
carry 8. Multiply the 6's and add the 8  
and put down 44 for the remaining  
numbers. The product is therefore  
4420. In this case the tens are alike.  
The same method may be used if  
the units are alike, thus: What is the  
product of 75 times 55? Five times 5  
are 25. Put down 5 and carry 2. Seven  
and 5 are 12. Twelve times 5 are  
60. Add 2. Put down 2 and carry 6.  
Seven times 7 are 49. Add the 6 and  
write 41. The product is 4125.

The last illustration might be work-  
ed another way since both of the right  
hand figures are 5 and the sum of the  
tens gives an even number. In such a  
case simply write 25 for the right hand  
figures, and for the remaining figures  
write the product of the tens increased  
by one-half the sum of the tens.—Chi-  
cago Record-Herald

# TEXAS

Our Next Excursion Leaves Pitts-  
burg in the Evening of  
July 6, 1908.

The Panhandle of Texas offers the very  
best inducements of the South-West  
States for the man who wishes to locate on  
a good farm as well as for the investor.  
This land is unusually fertile, it is well  
watered, no stamp or underbrush to clear  
up, but ready to plow at once. On this land  
you can raise larger crops of every kind  
with less labor than on farm land in Pen-  
nsylvania or West Virginia.  
There is an abundance of rainfall during  
the crop growing season, and they have the  
benefit of a most pleasant climate during  
the entire year of any place in the United  
States. Plenty of absolutely pure  
water.  
We are selling this land for \$50 to \$100 an  
acre, according to distance from railroad  
and towns. Good terms. You can buy as  
much acreage as you want to make as much  
money as the rest of our land in the  
first year.  
Send for our free illustrated booklet. You  
should investigate this proposition at once  
by going with us on our next excursion.  
Now is your chance before the land is all  
sold as thousands of our mother people have  
at all other times and the prices of land are sure  
to more than double in the near future. We  
will pay your expenses of making the trip if  
we have not presented the land.

the men who have saved some-

### COIN SWEATING.

An Illegal Practice Which Has Fallen Into Disuse.

Closely allied to the making of counterfeit coins and usually combined with that nefarious trade is what is known as "sweating," which requires considerable skill to accomplish successfully. A rubber mold is used, into which a gold coin to be sweated is introduced and held with a clip.

Copper wires having been adjusted, the coin is immersed in a bath of cyanide of potassium and an electric battery set going. The action of the electricity upon the coin in the acid uniformly sweats the metal—that is to say, causes so much of it to become detached. This process is gone through with a large number of coins, and the gold deposit thus obtained is extracted from the acid.

It is for the purpose of detecting the existence of such reduced coins that bankers weigh gold coins in a balance and if one is in the scale it will immediately be shown by the indicator. The light coin is then taken out, and whatever the shortage represents that amount the customer will have to make up or be fined.

But, all things considered, sweating is but a poor business, says H. E. Adam in his interesting book, "The Story of Crime," and evidently it is thought so by the criminal fraternity, for it has dwindled to a mere nothing. A sovereign weighs 123.27447 grains, and the limit of error in the weight is 2 of a grain, from which it may readily be gathered that sweating cannot now be a very lucrative business. The tenth and eleventh were blanks for each side. The twelfth proved fatal to Charleroi as with one down Phillips singled and Cowan hit for three sacks, scoring Phillips and crossing himself on May's error. Score:

Twenty one innings of baseball for twenty-five cents is plenty.

Pugilism, baseball and defeats.

Umpire McGeary was struck over the heart with a foul tip and knocked out for a few minutes. When he came to he said: "What's Wrong here."

And to think we made them go twelve rounds to be defeated.

Osborne had much the better of the argument with the exception of one inning.

McGeary's decisions were pretty raw and it is hard to tell which side got the worst deal.

McCloskey hurt his knee in sliding to second and was compelled to leave the game.

Eleven hits in nine innings for one run looks bad.

Scottdale and Connellsville went fourteen rounds.

Dailey was hit on the arm with a pitched ball and will be out of the game a while.

### Food Order is Out.

The state dairy and food division has given this notice of its intentions in regard to prosecutions in the form of bulletin. "under the liberal provisions of the Trustin food act, every retail grocer who is willing to familiarize himself with its simple requirements and to obey them is protected from prosecution for the sale of impure, adulterated or misbranded food products. If he takes the precaution to secure a properly worded guarantee from the manufacturer or jobber from whom his purchases are made he is immune. If it is shown that the goods he has been selling contain foreign substances or preservatives, or if it has been misbranded, the responsibility is shifted from the grocer to the person or firm from whom he made his purchases. Only if he recklessly ignores the law can he fall into trouble with the state. The agents of the state seek to help him and ask his co-operation in the effort to secure goods for the consuming public. Surely the law is so liberal that it should be universally obeyed so that there might no longer be occasion to institute prosecutions."

## NO SPITTING ON SIDEWALK, EDICT ISSUED BY POLICE

Ordinance Passed In Year 1902 To Be Rigidly Enforced From Now On--Physicians And Board of Health Request Action.

In accordance with the ordinance providing for the cleanliness of the sidewalks and streets of Charleroi, the police from now on will arrest all persons expectorating on the sidewalks and have them taken before the magistrates. The ordinance has not been strictly enforced, and the sidewalks sometimes in places have been in dreadful condition, covered with germ breeding spittle, especially the sidewalks on McKean avenue being so. The physicians of the town and the Board of Health have been urging their desires for cleanliness of the streets and sidewalks.

The ordinance regarding the matter was passed in the year 1902, it going into effect on June 8th, that year.

In section 1 it is stated that it shall be "unlawful for any person to spit saliva, expectoration, tobacco or other substance, upon the sidewalks or footways in any of the high ways, streets, lawns or alleys; or throw or cause to be thrown any waste paper, filthy water, slops, garbage, or debris on any of the sidewalks or footways or in any of the highways, streets, lawns or alleys, of the borough of Charleroi."

In section 2 the penalty for the violation of section 1 is fixed. The fine for the offense as stated above will be an amount not exceeding \$5.00. In default of payment the offender will be confined in the workhouse for a period not exceeding one day for each one dollar of fine imposed.

An arrest was made last night of a man in front of the Masonic building. He will have a hearing tonight.

## CHANGED CHECK ON CAR OF COAL AND SKIPS TOWN

Changing the check on a car of coal is the charge proven against a man at the trial of John A. Brown last week in the Charleroi court. The man had previously borne a good reputation and it was a great surprise to the citizens to learn of this mean theft. In arrest was intended but the man hurriedly packed a small valise and slipped the town. Through sympathy with his family his name is withheld.

A cow was stolen from the meadow of John Brown of Glenwood last week and driven over the Belle Vernon bridge and down towards Charleroi. The theft was committed in daylight and although the different cowboys have been notified, there has not yet been trace of the animal.

## ONIONS TAKE DOUBLE HEADER

Second Contest Lost After Going Twelve Innings.

4 TO 2 AND 3 TO 1

Uniontown took a lead on the first position yesterday that will be hard to overcome, by taking both games of a double header, the first by a 4 to 2 score and the second by a 3 to 1 score in 12 innings. The first contest started at 2 o'clock with Scizzors Melvaine on the hill for Charleroi and Abe Kruger, the pride of the Onions did the delivering for his team. While Charleroi got to his benders pretty freely they didn't come at the right time and two runs out of eight hits was the result. These two tallies were made in the third round when with one down Nally looked them over for free transportation. Tom Cosgrove marched one which sent Nally down a sack. Elliott picked one off the bush which counted for three bases sending two runs over. Although two hits were made in succession in the eighth with one down there was nothing doing in the run getting line as the next two batters were easy outs.

While Charleroi was striving for a victory the Uniontown boys were chalking up runs for themselves, the first one coming in the second round when Rudolph was hit and Joe Phillips soaked the pill for three sacks. Two more were made in the fourth when Rudolph doubled, Cowan singled and an error and a passed ball showed up. In the ninth McKeskey singled and after Hilley had died Rudolph singled scoring Mac.

The second game opened up with Osborne opposing Shetter. Arch Mitchell as nice ball as one could expect and held the Onions safe with the execution of two rounds, the first and twelfth. With one down in the first McKeskey walked and Hilley smashed it for two sacks. After this inning there was nothing doing for either side until Charleroi tried things up by swinging on run in the ninth on singles by Vance, Osborne and Nally.

### Dairymen Push Fight.

Washington, D. C., June 17.—There is a new campaign being waged in the Department of Agriculture, the dairy men are trying to keep the Government from inspecting their milk. A statement issued at the department says that "the department is not seeking to favor the dairy interests, nor to punish the oleomargarine manufacturer." The department holds that the papers in which the pound prints of oleo are wrapped are containers of meat food products, which under the meat inspection law should bear the Government mark.

## COAL COMBINE TO MAKE EFFORT TO RAISE MORE

The Monongahela river coal combine will make an effort to raise the steamer Stella Moren which went over the dam at Lock No. 2 last April and was wrecked. Her machinery, which is about all that is left will be repaired and used in building a new boat.

A committee, consisting of Capt. A. R. Mackey, C. F. Bolems, Albert Gilmore, J. W. Buttonfield, L. T. Dunlevy, W. R. Reno, Thos. Flaherty, Harry Black, Matthew Irwin, William Cowan, A. W. Harger and D. F. Crawford, has been appointed to make arrangements for the annual outing of the members of Harbor 25. Masters and Pilots, which will take place some time in July.

Packet men report some good catches of black bass and pike near lock 14 on the Monongahela. The West Virginia fishing season opened June 15 and continues until April 15. One or two camping clubs are now under canvas and several others have arranged to go into camp about July 1.

A slight rise in the upper Ohio river yesterday enabled packets to pass over the shoal places below dam No. 2. Dam No. 4 was reported up

## COMMISSIONERS TO INVESTIGATE

Catsburg Bridge at Monongahela To Be Examined.

ACTION TO BE TAKEN

County Commissioner Huffman and County Engineer Wylie were appointed yesterday by the board of commissioners to investigate the breaking down of the Catsburg bridge by the Pittsburgh and Charleroi street railway company.

It is understood that the trolley company has refused to bear the expense toward repairing the structure, but is willing to join with the county in making the repairs. It is understood that no contract was made with the county officials for erecting the trolley line over the bridge with the exception of a verbal one made by a former county commissioner.

The county commissioners of this county together with the officials of Westmoreland and Allegheny counties have entered into an agreement that no trolley company shall erect their lines over any of the river bridges now under course of construction unless a good, stiff rental is received.

Huffman and Mr. Wylie will make a thorough investigation of the broken structure and report on what can be done in reference to bearing the expense.

### Bishop Thoburn at Brownsville

The twelfth annual convention of the Favorite County Sabbath School Association closed at Brownsville last evening. Bishop J. M. Thoburn of Indiana was among the speakers. A feature of yesterday was a parade of Uniontown and Connellsville people, visiting delegates and Sunday schools. At least ten thousand people marched.

They will leave a few miles further on the river where Mr. Riggs will be employed by the Wilkes Creek Copper Company.

An excursion will be run from Charleroi to Summit on the Fairmount and Charleroi Railroad on Sunday, June 21. The return trip will be made on Sunday night. Tickets will be \$2.00 each.

### COIN SWEATING.

An Illegal Practice Which Has Fallen  
Into Disuse.

Closely allied to the making of counterfeit coins and usually combined with that nefarious trade is what is known as "sweating," which requires considerable skill to accomplish successfully. A rubber mold is used, into which a gold coin to be sweated is introduced and held with a clip.

Copper wires having been adjusted, the coin is immersed in a bath of cyanide of potassium and an electric battery set going. The action of the electricity upon the coin in the acid uniformly sweats the metal—that is to say, causes so much of it to become detached. This process is gone through with a large number of coins, and the gold deposit thus obtained is extracted from the acid.

It is for the purpose of detecting the existence of such reduced coins that bankers weigh gold coins in a balance, and if one is in the scale it will immediately be shown by the indicator. The light coin is then taken out, and whatever the shortage represents that amount the customer will have to make up or be fined.

But, all things considered, sweating is but a poor business, says H. L. Adam in his interesting book, "The Story of Crime," and evidently it is thought so by the criminal fraternity, for it has dwindled to a mere nothing. A sovereign weighs 123.27447 grains, and the limit of error in the weight is 2 of a grain, from which it may readily be gathered that sweating cannot now be a very lucrative business. London Tit-Bits.

#### DOUBLE HEADER

The tenth and eleventh were blanks for each side. The twelfth proved fatal to Charleroi as with one down Phillips singled and Cowan hit for three sacks, scoring Phillips and crossing himself on May's error. Score:

Twenty-one innings of baseball for twenty-five cents is plenty.

Pogilism, baseball and defeats.

Umpire McGeary was struck over the heart with a foul tip and knocked out for a few minutes. When he came to he said: "What's Wrong here."

And to think we made them go twelve rounds to be defeated.

Osborne had much the better of the argument with the exception of one inning.

McGeary's decisions were pretty raw and it is hard to tell which side got the worst deal.

McCloskey hurt his knee in sliding to second and was compelled to leave the game.

Eleven hits in nine innings for one run looks bad.

Scottdale and Connellsville went fourteen rounds.

Dailey was hit on the arm with a pitched ball and will be out of the game a while.

### New Food Order is Out.

The state dairy and food division has given this notice of its intentions in regard to prosecutions in the form of bulletin. "under the liberal provisions of the Trustin food act, every retail grocer who is willing to familiarize himself with its simple requirements and to obey them is protected from prosecution for the sale of impure, adulterated or misbranded food products. If he takes the precaution to secure a properly worded guarantee from the manufacturer or jobber from whom his purchases are made he is immune. If it is shown that the goods he has been selling contain foreign substances or preservatives, or if it has been misbranded, the responsibility is shifted from the grocer to the person or firm from whom he made his purchases. Only if he recklessly ignores the law can he fall into trouble with the state. The agents of the state seek to help him and ask his co-operation in the effort to secure goods for the consuming public. Surely the law is so liberal that it should be universally obeyed so that there might no longer be occasion to institute prosecutions."
